

COPPER-7.5%

LIQUID COPPER MICRONUTRIENT

For the correction of copper micronutrient deficiency For the correction of manganese micronutrient deficiency in field crops, vegetable crops, fruit crops, trees and vines. For soil or foliar application by air, ground and irrigation systems.

PRECAUTIONARY STATEMENTS

Wash hands thoroughly after handling. Wear protective gloves. Avoid breathing mist, spray or fumes. Use only outdoors in a well-ventilated area. Do not store below 32°F. Do not store in direct sunlight. If frozen, warm to room temperature and mix vigorously. Store in a well-ventilated and secured place. Keep container tightly closed. Triple rinse containers, then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by Federal, State, or local authorities. Store this product in stainless steel, fiberglass, polyethylene, or certain other plastic materials. Copper or any of its alloys (brass or bronze) should never be used in any chelate handling system. Aluminum and mild steel tanks are not recommended for storage of this product. Check with equipment manufacturer for compatibility of components prior to use of this product. NOTE: Do not mix or contaminate any EDTA type chelates with strong acid materials.

First Aid

If in Eyes	<ul style="list-style-type: none"> • Wash with plenty of water. • Take off contaminated clothing and wash it before reuse. • If skin irritation occurs, get medical attention
If on Skin	<ul style="list-style-type: none"> • Take off contaminated clothing. • Immediately rinse skin with plenty of water for 15 minutes.
If Inhaled	<ul style="list-style-type: none"> • Remove to fresh air.
If Ingested	<ul style="list-style-type: none"> • Clean mouth with water. • Afterward, drink plenty of water.
<p>Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergencies dial InfoTrac at 800-535-5053.</p>	

General Use Information

Copper-7.5% is a soluble form of copper used to correct copper deficiencies in agricultural crops. It is ideally suited for **ground application** and can be mixed with

7-0-0

Guaranteed Analysis:

Total Nitrogen (N).....7.0%

4.0% Ammoniacal Nitrogen

3.0% other water-soluble nitrogen sources

Copper (Cu)7.5%

9.0% derived from chelated Copper (Cu) and Copper EDTA

WARNING

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid contact with skin and eyes. Avoid breathing vapors or mist.

liquid starter fertilizer at time of application. Copper-7.5% is compatible with orthophosphate fertilizer, however, we do recommend testing for compatibility prior to tank mixing. **Foliar application** is recommended when fast correction is necessary, or soil application is impractical.

DIRECTIONS FOR USE

Consult your agriculture specialist such as state extension officer prior to making a micronutrient application. Under application and continued deficiency may result in reduced yield, but over application may result in phytotoxicity.

Notice: The use of the this product on any crops other than those recommended by the agriculture specialist may result in serious injury to the crops.

MIXING RECOMMENDATIONS

Soil Application: Apply 1-6 pints of Copper-7.5% per acre in starter fertilizer blend. Rate will depend on soil deficiently and should be determined by a professional agronomist.

Foliar Application: Typical application is 1-2 pints per acre. A wetting agent is recommended to facilitate complete wetting and improve plant uptake of micronutrient efficiency.
