GUARANTEED ANALYSIS

Boron (B).....	3.6%
Copper (Cu).....	6%
Manganese (Mn).....	6%
Zinc (Zn).....	12%

Derived from Calcium borate,
Copper oxide, Manganese
carbonate, Zinc Oxide.

Directions for Use:

Application rates vary with crop and soil conditions. Apply as required based on soil test results or according to agronomist recommendations in your approved nutrient management plan.

MDS ZnMnB should be agitated regularly on arrival and if stored by shaking, stirring or pumping.

Manual application is suitable for smaller quantities. Application can be varied to suit the equipment in use. Manually poured at point of agitation in mixer or sprayed in to rotary drum. Mix until granular fertilizer is fully coated. For advice on application methods/equipment contact: Cameron Chemicals Inc. at info@cameronchemicals.com

Caution: This material contains zinc and boron, so it should be used only as recommended. Boron can be injurious to certain crops if, use as directed. It may prove harmful when misused. Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.aapfoo.org/metals.htm>
